

HANDS FREE BLACK & WHITE VIDEO INTERCOM SYSTEM WITH 32 IMAGE MEMORY

The VISS3000 lets you conveniently identify visitors before answering your door. This system will increase your home or business security immediately. You can also find out who came to your home or business while you were away! The VISS3000 video intercom unit has built-in memory that records the image of up to 32 visitors who ring your bell with a time and date stamp.

A 4 inch flat CRT screen shows who is at the door and displays the saved image files. You can also manually capture the image of your visitor by pressing the record button. Door strike capable, you can simply press the door unlock button and you can unlock your door (door strike not included). The hands free function of this system lets you talk to your visitor without tying up your hands. Output the images with the included Audio/Video RCA cables and see who is at the door on your television. The included camera has a metal housing that can withstand virtually any weather condition and is virtually vandal proof.

Increase peace of mind knowing that your family is safer. Installing a VISS3000 will add security to your home or business.
