NYRIUS Premier's Unique Personal Travel Entourage

NYRIUS has introduced a new travel-friendly electronic gadget for the avid traveler, the ENTOURAGE7 Digital Talking Translator. The ENTOURAGE7 is the newest and most convenient travel solution on the market and breathes life into traditional translators. This smart device features a simplistic user-friendly design so travelers can communicate easily and efficiently. It is just as important as your passport.

"It's so frustrating when you can't communicate with people in a different country," says Brodie Mosher, Director of Marketing at NYRIUS. "This is one device that makes a difference in your vacation. Anyone planning to travel to Mexico, the Caribbean, Europe or Asia should have one."

The ENTOURAGE7 has unbeatable functionality with an innovative pocket-sized design. The translator utilizes 7 popular international languages with English, Spanish, French, Chinese, German, Italian and Japanese. These languages are among the world's most widely spoken languages.

The translator has a total of 5,040 phrases that are conveniently sorted into 8 conversational categories. Find a variety of useful everyday phrases in categories such as: directions, restaurants, transportation, hotel, general phrases, emergency situations, entertainment and sightseeing questions. You can find useful phrases like "How much does it cost?", "I want bottled water" and "Can you show me on the map?" The translator will display and speak the sentence in the desired language, allowing for maximum communication effectiveness. With the user-friendly design, you can instantly retrieve and deliver your message. The ENTOURAGE7 is the hottest, most unique electronic gadget available with features like a phonebook, built-in alarm clock and world time display.

The ENTOURAGE7 is the perfect gift for friends and family and is available at popular retailers and e-tailers such as Amazon.com for under \$40. For more information on the Digital Talking Translator, please visit www.nyrius.com.
