

JavaScript Programmer

CWD (Circus World Displays Ltd.) owns and operates 4 divisions and over 30 brands. Our divisions include SVAT Electronics, Tronics International, BlueTronics Group and RDS. CWD was established in 1961 and has become an innovator in the consumer electronics world.

We are adding to our Programming team and are looking for an experienced, hands on JavaScript Programmer to join our fast growing company.

We currently use an Oracle based ERP system called NetSuite that is entirely web accessible and all encompassing. The successful candidate will be responsible for day to day administration of NetSuite. Hours of operation are Monday to Friday 8am to 5pm.

The successful candidate will be responsible for:

PROGRAMMING

- Programming language within NetSuite (JavaScript necessary)
- Designing and implementing scripts to automate various departments
- Integrating third party, EDI, and webservice feeds with NetSuite
- Proactively investigating and developing methods to improve operational efficiency and productivity
- Assisting users in running existing reports that are currently available in the ERP system
- Developing custom records on an as needed basis
- Continually analyzing business processes, systems and applications to recommend changes that will align our ERP architecture with business needs.
- Troubleshooting issues related to system and other applications
- Planning and coordinating upgrades and software support for the NetSuite system
- Actively working with each department to ensure they are operating as efficiently as possible
- Other duties as required

TRAINING

- Developing training programs when necessary for team members using the system
- Developing and maintaining procedures, guides, handouts and technical documentation as needed
- Provide appropriate access of system to new hires

The successful candidate requires:

- 2-5 years JavaScript experience
- Programming experience (NetSuite experience an asset)
- College diploma or University Degree in software engineering, computer science.
- Demonstrated ability in maintaining significant programs/projects
- Direct hands on experience with ad hoc query programs, automated testing tools, and reporting software
- Excellent attention to detail with follow up skills

- Good project management skills
- Ability to communicate ideas in both technical and user friendly language
- Excellent organizational skills & time management skills assertive, able to initiate new methods
- Proven ability to work independently and as a team member

Qualified candidates are encouraged to apply online by visiting <http://www.svat.com/hr.php> and selecting the “Apply for a Position Now” button. Only online applications will be considered. Please note that only selected candidates will be contacted for an interview.
